Dear Sir:

We feel we can be of great help in the reconstruction of Kuwait and other damaged areas in the Middle East.

As you may remember from your New Hampshire gubernatorial days, we are a manufacturer and supplier of quality millwork--WINDOWS, DOORS (exterior & interior), and finish items including kitchen CABINETRY and counter tops--to the construction industry. While our primary function would be to supply doors, windows, and cabinetry for the rebuilding phase, we may also be able to assist in the DAMAGE ASSESSMENT via our representatives and employees who are skilled in the construction of residential property.

The two significant factors may differentiate us from other interested suppliers:

- (1) We have EXCESS CAPACITY because we are a MANUFACTURER located in New Hampshire serving the New England market which has been most significantly impacted by the current building recession. We do build to UNIQUE SPECIFICATIONS AS REQUIRED.
- (2) We are located in New England within easy reach of Eastern ports for ready shipment to the Middle Eastern area.

The enclosed piece of literature (which we sent out last year to prospective customers) will give some indications of our product line capabilities. On previous occasions, we have done large and small scale projects for government agencies and private industry in Europe, Africa, and the Middle East.

Since we are making every effort to keep our New Hampshire (and New England) personnel employed during this most difficult time, we would greatly appreciate any help or guidance you could give us.

Sincerely,

A handwritten signature in cursive script that reads "H. Andrew Connolly".

H. Andrew Connolly
