Processed By

Staff Archivists, December 2016. Previously restricted materials are added as they are released.

Scope and Content

The materials are a systematically processed body of documents from the White House Office of Records Management (WHORM) Subject File category CO002.

CO002 is a secondary subject category containing non-sensitive correspondence tracking coversheets, letters, memoranda, telegrams, statements, printed materials, papers, note cards, and a publication. The correspondence tracking coversheets are of routine nature routing letters and memoranda to staff members with sometimes brief descriptions of the particular topic and disposition notes. Letters and memoranda primarily consist of correspondence between President Bush, administration officials, White House staffers, congressmen, and American and foreign citizens.

System of Arrangement

Records that are responsive to this systematic review were found in Bush Presidential Records: WHORM Subject Files.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.
