Scope and Content

The materials in FE005 (Management Improvement Program) are a systematically processed body of documents from the White House Office of Records Management (WHORM) Subject File. This secondary subject category contains materials relating to improving the system of management in government. Nearly all of this file code is devoted to an examination of the Management by Objectives (MBOs) system. Bush outlines the basic principles of the program and then solicits input from the different departments and agencies as to three to five worthwhile objectives they think should be implemented within a relatively short period of time.

System of Arrangement

Records that are responsive to this FOIA request were found in Bush Presidential Records: WHORM Subject Files.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.
