Scope and Content

The materials in ME002-06 (Messages - Newspapers - Magazines - Radio - TV Stations) are a systematically processed body of documents from the White House Office of Records Management (WHORM) Subject File. This secondary subject category contains anniversary messages to newspapers, magazines, radio, and television stations. Messages were also provided by the White House to regional and national gatherings of reporters, broadcasters, and writers. Other messages were sent to media outlets that were publishing or broadcasting special editions or series that interested the President, such

as crime prevention and drug abuse. Also, there are many messages located in this sub-category that had no direct relation to the media. These generally involved requests from organizations that wanted messages from President Bush and planned to have them published. Finally, there were several messages provided to media outlets congratulating them for their public service during and after natural disasters. The vast majority of these related to Hurricane Hugo.

System of Arrangement

Records that are responsive to this FOIA request were found in Bush Presidential Records: WHORM Subject Files.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.
