Scope and Content

The materials in ST (State Governments) are a systematically processed body of documents from the White House Office of Records Management (WHORM) Subject File. This primary subject category contains materials relating to Presidential remarks given to groups such as the National Conference of State Legislators, National Association of Attorneys General, American Legislative Exchange Council, and Republican Governors. In these speeches Bush emphasizes familiar themes like states acting as laboratories, "individual empowerment," economic reform, the war against drugs, and a possible capital gains tax cut. Topics covered in lesser detail include term limits, Governors' Ethanol Coalition, state technology programs, Governor' Commission for the Family, and the Model State Volunteer Service Act.

System of Arrangement

Records that are responsive to this FOIA request were found in Bush Presidential Records: WHORM Subject Files.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.
