Scope and Content

The materials in ST040 (South Carolina) are a systematically processed body of documents from the White House Office of Records Management (WHORM) Subject File. This secondary subject category contains materials relating to the necessity of federal disaster assistance for the state in the aftermath of Hurricane Hugo; Senator Strom Thurmond urging President Bush to bring to a halt the perception that South Carolina was losing military assets, such as the transfer of units and ships from Charleston Navy Base to a new facility in Ingleside, Texas, because of diminishing political influence; and the circumstances that caused Debordieu, a project on the South Carolina coast, to fall into bankruptcy.

System of Arrangement

Records that are responsive to this FOIA request were found in Bush Presidential Records: WHORM Subject Files.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.
