Scope and Content

The materials in FG053 (District Courts, US) are a systematically processed body of documents from the White House Office of Records Management (WHORM) Subject File. This secondary subject category includes materials relating to the appointment of individuals to the United States Court of Appeals. The category contains recommendations from the general public, members of Congress, and patronage committees; letters of resignation from the court; and nomination packets (see FG050). This is the largest subcategory relating to the judiciary and includes a tremendous amount of highly routine materials regarding the appointment of U.S. District Court judges.

System of Arrangement

Records that are responsive to this FOIA request were found in Bush Presidential Records: WHORM Subject Files.

The WHORM Subject File compiled by the White House Office of Records Management is comprised of a series of documents assigned a letter/number combination and filed in a subject category. A complete listing of the subject categories including a detailed description of each category is available in our research room and on our website at <http://bushlibrary.tamu.edu/research/find/whorm/whorm.html>.
